

DOGSTHORPE INFANT SCHOOL

Children With Health Needs That Cannot Attend School Policy

Ratified by: LGB

Date: 9th October 2024

Minute: 10

Review Date: Annually

Welcome to our school family where children are...

-  inspired to dream and develop the building blocks to be independent, confident and inquisitive life-long learners.
-  nurtured, valued and individual differences are respected in an exciting, learning community where everyone belongs.
-  little stars who deserve to shine.

Policy Overview.

What is the policy for?	This policy aims to ensure that a suitable education is arranged for pupils on roll who cannot attend school due to health needs and that pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority
Who has devised and contributed to this policy?	This Policy is based on Dfe guidance and the Trust model policy.
How will this policy be communicated?	The policy is available on the school website, My Concern and a copy is available from the school office.
How will this policy be monitored?	This Policy will be monitored by the Headteacher, SENDCO & FWBC (Attendance) and Governors
Which other policies are linked to this policy?	Accessibility Plan Supporting Children with medical conditions Attendance SEND

1. Aims

This policy aims to ensure that:

- Suitable education is arranged for pupils on roll who cannot attend school due to health needs.
- Pupils, staff and parents/carers understand what the school is responsible for when this education is being provided by the local authority.
- All children who are unable to attend school due to medical needs, and who would not receive suitable education without such provision, continue to have access to as much education as their medical condition allows, to enable them to reach their full potential.

Due to the nature of their health needs, some children may be admitted to hospital or placed in alternative forms of education provision. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not in school and will work with the Local Authority, healthcare partners and families to ensure that all children with medical needs receive the right level of support to enable them to maintain links with their education.

2. Legislation and guidance

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to the following:

- Education Act 1996
- Equality Act 2010
- Data Protection Act 2018
- DfE 'Ensuring a good education for children who cannot attend school because of health needs' (2013)
- DfE Supporting pupils at school with medical conditions

3. Responsibilities of the school

Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs with parents/carers and consider how their needs may be best met in conjunction with the Local Authority, relevant medical professionals and, where appropriate, the pupil.

The school will support pupils with health needs to attend full-time education wherever possible, or the school may make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments. These reasonable adjustments may be recorded in a pupil's individual healthcare plan (IHCPs), in accordance with the Supporting Pupils with Medical Conditions Policy.

Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned. During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes. Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.

Whilst a pupil is away from school, the school will ensure the pupil can successfully remain in touch with their school through school ICT platforms including Class Dojo and Numbots, along with newsletters, emails, invitations to school events, cards or letters from peers and staff. Initially, the school will attempt to make arrangements to deliver a suitable education for children with health needs who cannot attend school. The Headteacher and SENDCo will be responsible for making and monitoring these arrangements.

The school will discuss arrangements for working from home or hospital with parents/carers. A plan will be drawn up detailing agreed actions from the discussion, the plan will be signed by school and parents/carers. The plan will then be carried out to deliver education to the child.

Arrangements could include sending work home, the pupil attending a hospital school whilst they are an in-patient, a member of staff attending the home to support work or access to online learning such as Class Dojo. Work will be prepared by class teachers.

Once the pupil is able, they will be integrated back into school with alternative arrangements to make it possible. These will be discussed with parents/carers and the pupil in conjunction with any medical advice from other professionals. To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, adaptations may need to be considered including:

- a personalised or part-time timetable, drafted in consultation with parents/carers and the named staff member;
- access to additional support in school;
- reasonable adjustments to the physical learning environment as advised by medical professionals such as Occupational Therapists;
- online access to the curriculum from home;
- movement of lessons to more accessible rooms;
- places to rest at school;

- special exam arrangements to manage anxiety or fatigue;
- alternative provision for break or lunch times.

3.1 If the local authority makes arrangements

If the school can't make suitable arrangements, Peterborough City Council will become responsible for arranging suitable education for these pupils.

In cases where the local authority makes arrangements, the school will:

- Work constructively with the local authority, providers, relevant agencies and parents/carers to ensure the best outcomes for the pupil.
- Share information with the local authority and relevant health services as required.
- Help make sure that the provision offered to the pupil is as effective as possible and that the child can be reintegrated back into school successfully.
- When reintegration is anticipated, work with the local authority to:
 - Plan for consistent provision during and after the period of education outside the school, allowing the pupil to access the same curriculum and materials that they would have used in school as far as possible.
 - Enable the pupil to stay in touch with school life (e.g. through newsletters, emails, invitations to school events or internet links to lessons from their school).
 - Create individually tailored reintegration plans for each child returning to school.
 - Consider whether any reasonable adjustments need to be made.

3.2 The Governing Body and Headteacher

The Governing Board and Headteacher are responsible for:

- Ensuring arrangements for pupils who cannot attend school as a result of their medical needs are in place and are effectively implemented.
- Ensuring the regular review of the arrangements made for pupils who cannot attend school due to their medical needs. Regular to be defined by the individual needs of the child.
- Ensuring the roles and responsibilities of those involved in the arrangements to support the needs of pupils are clear and understood by all.
- Ensuring robust systems are in place for dealing with health emergencies and critical incidents, for both on- and off-site activities.
- Ensuring staff with responsibility for supporting pupils with health needs are appropriately trained.
- Appointing a named member of staff who is responsible for pupils with healthcare needs and liaises with parents/carers, pupils, the LA, key workers and others involved in the pupil's care.
- Providing teachers, who support pupils with health needs, with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken

has on the pupil.

- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

3.3 The SENDCo is responsible for:

- Pupils who are unable to attend school because of medical needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying pupils' education providers with information about the child's capabilities, progress and outcomes.
- Liaising with the headteacher, education providers and parents/carers to determine pupils' programmes of study whilst they are absent from school.
- Liaising with medical professionals as appropriate.
- Providing a link between pupils and their parents/carers, and the LA.
- Ensuring teachers and support staff are kept informed of the health needs relating to pupils they work with.

3.4 Teachers and Support Staff Teachers and Support Staff are responsible for:

- Understanding confidentiality in respect of pupils' health needs.
- Designing lessons and activities in a way that allows pupils with health needs to participate fully, ensuring they are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in supporting pupils with health needs and ensuring they attend any required training.
- Ensuring they are aware of the needs of their pupils through the appropriate sharing of the individual pupil's health needs.
- Ensuring they are aware of the signs, symptoms and triggers in relation to the medical needs of the pupil and know what to do in an emergency.
- Reading and understanding any medical care plans and reporting any concerns to the SENDCo.
- Keeping parents/carers informed of how their child's health needs are affecting them whilst in the school.

4. Absences

Pupils who are absent because of illness can be supported through liaison with the pupil's parents/carers. This may be through schoolwork being provided for completion at home as soon as the pupil is able to cope with it. Alternatively, it may be possible for part-time education at school or a gradual phased return to full-time attendance.

The school will give due consideration to which aspects of the curriculum are prioritised, in

consultation with the pupil, their family and relevant members of staff.

For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the named person with responsibility for pupils with health needs will notify the LA, who will take responsibility for the pupil and their education. Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence. For hospital admissions, the appointed named member of staff will liaise with the LA regarding the programme that should be followed while the pupil is in hospital. The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education otherwise than at school.

5. Monitoring arrangements

This policy will be reviewed annually. At every review, it will be approved by the full governing board. Any changes in the policy will be clearly communicated to all members of staff involved in supporting pupils with additional health needs, and to parents and pupils themselves.

Definitions

Children who are unable to attend school as a result of their medical needs may include those with:

- Physical health issues.
- Physical injuries.
- Mental health problems, including anxiety issues.
- Emotional difficulties or Emotionally Based School Avoidance.
- Progressive conditions.
- Terminal illnesses.
- Chronic illnesses
